January, 2018

Nasdaq Internship Program 2018

Dear students,

We kindly invite you to apply for **Nasdaq Global Technology Services Summer Internship** program in Vilnius, Lithuania. The paid 10 week program starts in June and provides onboarding orientation, weekly training and development sessions and work on meaningful projects together with mentor and team. We plan to invite 10 technology students to do the internship with us during summer 2018.

You can find all information by clicking this link http://bit.ly/internshipVilnius

Since the opening in 2015, Nasdaq Technology and Business Support Competence Center in Vilnius is one of the fastest growing Nasdaq's offices. Vilnius office is the second largest office in Europe and the third largest office globally. At the moment there are 350 colleagues working in the areas of finance & accounting, global technology, market operations, corporate solutions & functions.

Our team is comprised of best professionals and office culture can be described as friendly, welcoming and encouraging continuous development. It is an interesting challenge to work in a global company where you feel a small, but very influential player. As our colleagues say "the world is small at Nasdaq". We work with colleagues and clients from all over the world: US, Canada, UK, Nordics, Australia, Asia, Middle East. At the same time we foster our local office traditions by participating at engaging internal events, educating ourselves and giving back to the community.

Career opportunities and open positions at Nasdaq can be found here.

If you want to read more about us and stay updated about news and happenings within the company visit us at LinkedIn and our webpage. Also we invite you to follow our local news on our Nasdaq Vilnius Facebook page.

Sincerely,
Nasdaq team
