

The Host Company

Factobotics is a robotics company specialized in developing cutting-edge industrial robotic solutions, turning them into standard products and commercializing worldwide. More info: www.factobotics.com

Role

Factobotics office in Vilnius is looking for the right candidate to be a part of our team providing support for marketing and design activities within the company. Person could choose if he/she would like to work more with marketing or design tasks (or both).

Tasks

- Social Media: management of the following accounts: LinkedIn, YouTube
- Events: Assist in representing the company at different tradeshows, networking events.
- Marketing material: creation/updates of marketing materials such as product sheets, presentations, product video, etc.
- Website: Content management, updates, use of Google analytics, monthly reports

Requirements

We are looking for a candidate with the following qualifications, experience and skills:

- Proficiency level of English
- Eagerness to learn more about marketing
- Proactive, open minded, not afraid of responsibility, an outgoing personality
- Ability to multitask

Offer

- Chance to work with exciting robotic solutions, network with key players in the market, get first-hand market insights and build a path for your future carrier
- Chance to develop your marketing knowledge and apply it in practice while doing a wide range of real marketing tasks
- International and friendly working environment

Location

Vilnius

Duration

1-4 months, part-time

How to apply

Please send your CV and short motivational statement to vk@factobotics.com
