

DEMATIC

THE FUTURE IS HERE

ACTIVITIES

- Development of Simulation Models of materials handling solutions
- Clear and effective communication of Simulation assumptions
- Ensure that Simulation Models correctly represent the behaviour of real systems;
- Development of standard, re-useable modules of Simulation code.

REQUIREMENTS

- Demonstrated ability to write scripts and to learn new scripting languages
- Knowledge of materials handling (adv.)
- Experience of computer Simulation, especially with AutoMod Simulation software (adv.)
- Knowledge of French, German, Spanish, or Italian (adv.).
