ArcaPay Ltd
35-37 Ludgate Hill, Office 7
London EC4M 7JN
www.arcapay.com

Junior Full Stack Developer at ArcaPay

Position overview

ArcaPay (https://www.arcapay.com/) is a rapidly growing financial technology (FinTech) company with offices in London, United Kingdom, and Vilnius, Lithuania. We are searching for **Vilnius based** full-time and part-time **IT developers.** This is an exciting opportunity for motivated individuals that strive to make a difference.

Principal duties and responsibilities

Working alongside a Senior IT Developer, a new member of the team will be involved in a wide range of projects:

- Front-end development: improvement of existing functionality, development of new features.
- Back-end development: automation of internal processes, e.g. connectivity to payment systems and currency exchange platforms in different countries, integration of compliance procedures and solutions.

Requirements

- Good command of PHP. Knowledge of any framework would be a plus.
- Familiarity with databases (e.g. MySql, MongoDD, etc.).
- Front-end development experience with CSS / JavaScript / HTML.
- Prior experience with any of the following would be advantageous: Photoshop, GIT, C#, cURL, SEO optimisation.
- Interest in the latest IT developments such as cybersecurity, artificial intelligence (AI), etc.
- Genuine curiousity and willingness to learn.
- A sense of humour always helps.

What we offer

- A broad set of responsibilities in a fast-growing FinTech startup.
- Career progression opportunities.
- Friendly team with excellent environment for personal growth and development.
- Competitive salary based on your experience and linked to performance.

If you are interested in this opportunity, please send your 1 page CV in English to **hello@arcapay.com**
