

## Junior Full Stack Developer at ArcaPay

### Position overview

ArcaPay (<https://www.arcapay.com/>) is a rapidly growing financial technology (FinTech) company with offices in the United Kingdom and Lithuania. We are searching for **part-time IT developers** to work remotely or from our office in Vilnius. This is an excellent opportunity for motivated students aspiring to gain practical experience.

### Principal duties and responsibilities

Working alongside a Senior IT Developer, a new member of the team will be involved in a wide range of projects:

- Front-end development: improvement of existing functionality, development of new features.
- Back-end development: automation of internal processes, e.g. connectivity to payment systems and currency exchange platforms in different countries, integration of compliance procedures and solutions.

### Requirements

- Enrollment in an **IT related study programme**.
- Familiarity with **PHP programming language**. Knowledge of any framework would be a plus.
- Familiarity with databases (e.g. MySQL, MongoDB, etc.), front-end development experience (CSS / JavaScript / HTML) would be advantageous.
- Genuine curiosity and willingness to learn.
- A sense of humour always helps.

### What we offer

- Hands on practical experience from the very beginning in a fast-growing FinTech startup.
- Flexibility to fully adapt the work schedule to studying needs.
- Friendly team with excellent environment for personal growth and development.
- Career progression opportunities.

If you are interested in this opportunity, please send your 1 page CV in English to [hello@arcapay.com](mailto:hello@arcapay.com)
